## Informed Consent

PLEASE NOTE THAT THIS FORM MUST BE SIGNED PRIOR TO YOUR 1ST APPOINTMENT

Naturopathic medicine is the treatment and prevention of diseases by natural means. Naturopathic Doctors assess the whole person, taking into consideration physical, mental, emotional and spiritual aspects of the individual. Gentle, non-invasive techniques are generally used in order to stimulate the body's inherent healing capacity. Dr. Carrie and/or Dr. Andrea will take a thorough case history, perform a complaint-oriented physical examination, and if required, take a urine sample and request blood work.

It is very important that you inform Dr. Carrie Mitchell and/or Dr. Andrea Clarke of any condition or disease that you currently have and if you are on any medication or over the counter drugs. If you are pregnant, suspect you are pregnant or you are breast-feeding, please advise your Naturopathic Doctor immediately.

There are some health risks to treatment by naturopathic medicine. These include but are not limited to:

- Aggravation of pre-existing symptoms
- Allergic reactions to supplements or herbs
- Pain, bruising or injury from acupuncture or intramuscular injections
- Fainting or puncturing of an organ with acupuncture needles, accidental burning of the skin from the use of moxa.

I understand that a record will be kept of the health services provided. This record will be kept confidential and will not be released to others unless so directed by myself unless law requires it. I understand that I can request a copy of it by paying the appropriate fee. I understand that information from my medical record may be analyzed for research purposes and that my identity will be protected and kept confidential.

I understand that the results are not guaranteed. I do not expect the Naturopathic Doctor to be able to anticipate and explain all risks and complications. I intend this consent form to cover the entire course of treatment. I understand that I am free to withdraw my consent and to discontinue participation in these procedures at any time.
